

Questions to ask your doctor or pharmacist:

- ♥ What is the name of my medicine and how do you spell it?
- ♥ What is the medicine for?
- ♥ When should I take this medicine?
- ♥ How much should I take?
- ♥ What should I do if I forget to take the medicine?
- ♥ What should I do if I accidentally take more than the prescribed dose?
- ♥ Are there any side effects I should know about?
- ♥ When should I call the doctor if I experience a side effect?
- ♥ Does this drug interact with my other medicine?
- ♥ Do you have written information about this medication? If not, where can I find this information?
- ♥ Is there a lower cost medicine I can take?
